ing;
We heard the troubled flow.
Of the dark olive depths of pines, resounding
A thousand feet below; Above the tumult of the canon lifted,
The grey hawk breathless hung,
Or on the hill a winged shadow drifted
Where furze and thorn-bush clung;

Or where, half-way, the mountain side was furor where, not roved roved with many a scam and sear, with many a scam and sear, or some abandoned tunnel dimly burrowed or mole-hill seen so far;

We looked in silence down across the distant
-Unfathomable reach,
A silence broken by the guide's consistent
And realistic speech;

"Walker of Murphy's blew a hole through Peters For telling him he lied. Then up and dusted off of South Hornitos Across the long Divide.

"We ran him out of Strong's and up through Eden,
And 'cress'the ford below,
And up this motmrain (Peters' brother leadin')
And me and Clark and Joe.

"He fourtus game; somehow, I disremember Jest how the thing kem round; Some say twas wadding, some a scattered ember From fires on the ground."

"But in one minute all the hill below him
Was just one sheet of flame;
Guardin' the crest, Sam Clark and I called to him,
And—well, the dog was game.

"He made no sign-the fires of hell were 'round him.
The pit of hell below;
We sat and waired, but we never found him,
And then we turned to go.

'And then-you see that rock that's grown so

with shapparel and tan— Suthin' crep' out—it might hey been a grizzly, It might hey been a man—

"Suthin that howled and gnashed its teeth and shouled In smoke and dust and flame; Suthin' that sprang into the depths about it, Grizzly or man—but game!

"That's all. Well, yes, it does look rather risky, And kinder makes one queer
And dizzy looking down. A drop of whiskey
Ain't a bad thing right here i''

Rosins-The market for strained is lower faul weak. Sa.es embrace 700 bbls to arrive at \$2 61; cargoes are not offered. The fine qualities meet with a very fair inquiry at strong prices. From the Daily Bulletin, March 16: The business doing is still moderate, but buyers have to-pay full prices, as the advantage of the position is all with holders, and they intend to retain it. Sales of 25 tes Carolina at 8½28%c, and 180 bags Rangoon at 71/671/6.

Tyanya.

From the Journal of Commerce: Rice remains without change. The stock is very moderate and is not pressed on the market, but at the moment there is not much demand. We quote Carolina at 888%c, and Rangoon, duty paid, at 787%c, cur-

rency.
From the Journal of Commerce, March 17: The market is inactive. The demand is limited, but the stock is so small that values do not vary. We quote Carolina at 838%c, and Rangoon, in bond, at \$3.408.80 mild. at 53 403 50, gold.

Boston Market.

Boston, March 15.—Coffee.—The market for coffee remains without change. Prices are well sustained, with a fair demand for Jobbing lots. We notice sales of 9100 pockets Singapore Java at a price we did not learn; Java, in lots, at 19½a23c. gold, and Rio at 15a16½c B ib, gold. Some 1957 bags St. Domingo have been exported to Antwerp, and the prices of this article is nominally 9½a10c F ib, gold, no bead.

Cotton,—There has been a steadler feeling for cotton for some days past, and the downward tendency of prices has been checked, but manufacturers are purchasing only in lots as wanted, and there appears to be no confidence in a higher range of prices for the future. The sales have been at 11½a12c for ow middling, and 15a15½c for middling, including uplands and Gulf, the market closing steady at these figures.

Domegrica—In Cuton goods there is rather more doing, but the recent decline in cotton has led to rather easier prices for some kinds, while stocks of desirable goods are sold up so close that very little change has taken place. The lobbing trade is also more active with the prospects of a very fair trade. Woollens are firm and have an upward tensency, the high price of wool having materially increased the cost of production.

GUNNY BAGS.—The market is quiet at 15½a16c, carrency; and to arrive 500 beles have been sold at 11c, gold, in bond.

GUNNY LOTH.—This article is firm, and prices have advanced, with considerable speculative inquiry. The sales include 7.00 bales to arrive at 12½a12½c, gold, in bond. and 1000 rolls domestic at 21c, currency. The market is now firm at 21c for domestic, and 19½c for Calcutta.

HAY.—There has been a fair demand for Eastern, with sales at \$19a29 per ton as to quality.

NAYAL STORES.—Spirits turpentine has deolined to 57a57½c per gallon, with moderate saies. Tar squet, but remains quite steady. In rosin, sales of 100 bbls low No. 1 at \$350 per bbl. Pitch is

They are mounted in the finest manner, in frames of the best quality, of all materials used for that purpose. Their finish and durability cannot be surpassed.
